

Special Issue on Linguistics, Literature and Arts

— The selected paper from ICLLA 2019

As the title says, "International Conference on Linguistics, Literature and Arts" or ICLLA is a multidisciplinary international conference covering a wide range of academic fields. The papers selected in this issue are amongst the best papers presented in the 2019 ICLLA annual conference. The commonality in any outstanding research is that it has its own uniqueness, well-established theoretical background based upon previous research findings, and enough data or evidence to implement or support the idea. Innovation does not occur in a day but occurs after a long period of careful observation of previous research findings and building logic and data to support those innovative ideas.

This special issue presents innovative research findings based upon excellent methodology from research findings related to language. Language is a vehicle to convey ideas. Scientific innovation on language research provides people with newer and richer way of communication.

I do hope new insights in this special issue will not only contribute to the field of academia but also bring new ideas to those who are seeking for richer communication through languages.

This special issue on **Linguistics, Literature and Arts** in the fields of **Linguistics, Literature and Arts** is brought from the short listed papers of the 2019 6th International Conference on Linguistics, Literature and Arts (*ICLLA 2019*) during **January 28-30, 2019 in Peninsula Excelsior Hotel Singapore**. It contents papers on Linguistics Applied Linguistics, Discourse Analysis, and Language for Specific Purposes, Language Education, Language, Literature and Ideology, Autonomy in language learning, Teaching language skills and elements.

We hope that this issue contributes to the researchers and academicians in the field of **Linguistics, Literature and Arts**.

We acknowledge *International Journal of Languages, Literature and Linguistics* for their kind support and help in bringing out this special issue.
